

TEAM

TEAMWORK EFFECTIVENESS ASSESSMENT MODULE

How to Select Your Team

In this section, you will identify your team—the other healthcare professionals who will provide you with feedback, and invite them to complete an assessment about your interprofessional teamwork behaviors. Please choose people with whom you spend a significant proportion of your time caring for patients, and whose work you have the ability to influence (i.e., people who rely on you for information, decisions, and/or opinions).

Requirements

- You must select a minimum of 15 team members.
- You must select at least 1 nurse with a leadership role (e.g., a nurse manager).
- You may not select more than 5 physicians.

You May Select	You May NOT Select
<ul style="list-style-type: none">■ The care team on a specific unit or in a specific location (nurse managers, nurses, therapists, pharmacists, social workers, consulting physicians, etc.)■ The care team(s) with whom you work to care for one or more specific patients■ Care-team members from different units in which you work■ Other professionals within the hospital with whom you work regularly and who are qualified to assess your ability to work as part of a patient-care team, including specific individuals from:<ul style="list-style-type: none">○ Nurse○ Physician○ Nurse manager○ Care coordinator / case manager / discharge planner○ Nurse practitioner / physician's assistant○ Social Worker○ Pharmacist○ Hospital administration○ Therapist (allied health)○ Dietician / nutritionist○ Unit coordinator / clerical staff○ Informatics / IT○ Chaplain○ Other	<ul style="list-style-type: none">■ People who do not work at your current institution■ Residents or other physician trainees under your supervision■ Patients or patients' family members
